Lenovo C540

POSITIONING STATEMENT

The 23-inch Lenovo C540 all-in-one reshapes the affordable home computer into a smart, space-saving PC, combining great multimedia features and performance that make these ideal PCs for family use and home entertainment.

KEY FEATURES

- 23-inch HD LED (1920x1080) display with flexible screen for multiple viewing angles (optional multi-touch)
- Up to 3rd Gen Intel® Core™ i3 processor
- Up to NVIDIA® GeForce® 615 2GB graphics, ideal for PC gaming
- Dolby® Advanced Audio V2 for a crisp, clear cinematic surround sound experience
- Lenovo Education Portal with nine child education games

MARKET PERSPECTIVE

The Lenovo C540 provides an ideal combination of performance and affordability. Optimized for entertainment consumption, the stunning 23-inch HD LED display with optional multi-touch function is made for watching HD videos and movies. The C540 also includes great entertainment features including Dolby® Advanced Audio V2 for a crisp, clear cinematic surround sound experience, an adjustable screen display, Lenovo Dynamic Brightness System, which automatically adjusts screen brightness based on users' current surroundings and Lenovo Eye Distance System, which alerts users if they are too close to the screen. With up to 3rd generation Intel® Core i3 processors, the C540 packs powerful performance and supports up to NVIDIA® GeForce® 615 2GB graphics, ideal for casual PC gaming fun.

The Lenovo C540 also fits into any home environment with its thin, simplistic design and unique aluminum stand that utilizes minimal desk space and allows users to slot the keyboard under the screen.
